Q.4 (a) As the District Health Officer, Junagadh, Gujarat you have decided to set up a Rehabilitation-cum-Health-Care-Centre in the district, especially for the benefit of the rural population. The objective of the rehabilitation programme is to enable them to live with human dignity. The healthcare programme mainly aims at carrying out immunization programme effectively in addition to developing awareness about the need for nutrition to fight the menace of malnutrition and the related diseases among the children. The proposal is to be submitted to the Director of Health Services, Ahmedabad, Gujarat. Draft this proposal.

(b) Read following paragraph carefully and answer the questions that follow.
The term co-operation loses its meaning when ‘co-operative’ becomes ‘competitive’ and just a firm of retail shopkeepers, entering into rivalry with either similar co-operatives or private shops. In the issue of licenses, permits, supplies, grants loans, etc. Government follows a general policy of preferring co-operatives to private organizations. Since Government itself is run on party lines, this has led to rival co-operatives, one favored by the party in power and the other trying to checkmate it. To remedy this, one way would be to insist on having only one multi-purpose co-operative in one unit, to eliminate all private dealers in distribution and to make membership in the co-operative society compulsory for every householder.

My feeling is that co-operatives, whether in selling, purchasing or distributing should be restricted to carry on their operations for and among their members only. They must not become commission agents or middlemen between non-members on the one hand and Government or the world on the other.

Questions:
I. When does a co-operative lose its proper function?
II. What solution has been suggested by the writer to remove rivalry among co-operatives?
III. Why should membership be made compulsory for all householders?
IV. The word ‘operation’ in the passage means………
   (choose most appropriate meaning of the following)
   - Management
   - A surgical procedure
   - Work
