**Instructions:**

- 1. Attempt all questions.**
- 2. Make Suitable assumptions wherever necessary.**
- 3. Figures to the right indicate full marks.**

**Q.1 Write Precise Facts about the given Paragraph. (10)**

Presentation drawings are those we typically think of when the term “design drawing” is used or mentioned. These drawings describe a design proposal in a graphic manner intended to persuade an audience of its value. The audience may be a client, a committee, or merely someone browsing for an idea. Whether produced to assist the client’s imagination or to obtain a commission, either privately or through a competition, presentation drawings should communicate as clearly and accurately as possible the three-dimensional qualities of a design. Although the drawings that comprise a presentation may be excellent two-dimensional graphics worthy of an exhibition, they are merely tools for communicating a design idea, never ends in themselves.

**Q.2 Write an application for the post of an architecture designer, the company in which you would like to work. (10)**

**Q.3 If you are looking for employees and you are conducting interview. What are the skills that you think should be in a candidate. Discuss interview skills. (15)**

**Q.4 What is a group discussion. Discuss on topic and through that topic explain the process of group discussion (15)**
